For more information, purchase **Achieving Success in Inner City Schools: A Guide for New and Seasoned Teachers**

**Behavioral Matrix**-Adopt and adapt this behavior matrix while including their input. Don't just tell them the rules, discuss what the expectations look like in the hallways, cafeteria, during transitions, restrooms, and in the classroom!

**Consequence Clipboard**- Great tool to document student behavior. Modify the steps to match your classroom management system. Conference with the student after each step so they are aware of the progression of their consequences.

**Class Timers**- Fun timers for classrooms. They just add some extra fun to the usual countdown timers.

**Class Tools**- Create free educational games and tools in flash practical pedagogies.

**Sample Behavior Plan**-Adopt and adapt this class/ team behavior plan that will help change the environment to shape student behavior.
